Definitions	

A standard left chest 3.5" x 2" logo usually takes between 4,000 and 7,000 stitches, while a small quarter-sized image can usually be done with 1,000 stitches or so.

Digitizing & Digitizing Fee - Digitizing is the art of converting a logo or other electronic form of art work into stitching. Digitizing is what tells the embroidery machine what stitches to place where. Digitizing images you pay for are your property. This is a one time fee per design. Any digitized images will be available to you for future embroidery needs.

In-stock Designs - We offer the complete Dakota Collectibles catalog of stock designs to save on embroidery costs. You can find over 15,000 stock designs we offer free of charge at www.dakotacollectibles.com.

Embroidery Combos - With the Dakota Collectibles stock designs, stitch combinations can be created and names added to the design. This is a quick and inexpensive way to personalize items.
